Yevhenii Skrypnyk | Front-End Developer

Summary

I am an enthusiastic and self-motivated Front-End Developer with **10+ years of commercial experience** and **2+ years of freelance experience**. I specialize in building responsive, pixel-perfect websites and scalable front-end architectures using modern web technologies.

- Proven success in delivering high-quality web products for clients across the **USA, UK, Germany, and the Netherlands**, often working in time-shifted schedules.
- Strong **communication skills** with an **intermediate spoken** and **upper-intermediate written** level of English.
- Experience mentoring and coaching junior developers.
- Recognized for being **diligent, proactive, and result-oriented**.
- Upwork Profile with **3600+ hours billed**.

Work Experience

Web3 Front-End Developer | Toucan Protocol (Sept 2021 – Jan 2025)

Worked on a cutting-edge climate-tech startup (app.toucan.earth), contributing to a blockchain-integrated web product with high data visualization requirements.

- Developed front-end components using **TypeScript**, **React**, **TailwindCSS**, **Ethers.js**, and **Storybook**.
- Supported the development team with **PR reviews**, ensuring code quality and standards.
- Executed user stories from the product backlog and contributed to drafting technical specifications.
- Wrote **unit and integration tests** using **Jest** to ensure reliability.
- Collaborated with the product and design teams to deliver **UI/UX** improvements.

Front-End Developer | Freelancer (Dec 2020 – Sept 2021)

- Delivered Figma/Sketch to HTML5/CSS3 projects with a strong emphasis on **pixel-perfect** and **mobile-first** design.
- Utilized **Sass**, **Gulp**, and **BEM** for scalable and reusable code architecture.

Front-End Developer | Astound Commerce (April 2018 – Dec 2020)

- Developed eCommerce solutions for **Salesforce Commerce Cloud (Demandware)**.

- Ensured cross-browser compatibility, responsive design, and adherence to web standards.

Front-End Developer | Freelancer (April 2016 – April 2018)

- Specialized in **HTML5**, **CSS3**, **JavaScript (ES5)**, and **jQuery**.
- Conducted **A/B testing** using **Google Optimize**.

Front-End Developer | WGCZ s.r.o. (Y8.com) (March 2014 – April 2016)

- Translated designs into live layouts, collaborating with UX designers and product owners.
- Refactored codebases and implemented design improvements.

Front-End Developer | Ukad-Group (May 2013 – March 2014)

- Developed front-end for **Co:tunity** social network projects.
- Conducted A/B testing and implemented responsive design solutions.

Markup Developer | Health Formula (March 2009 – May 2013)

- Converted thousands of PSDs to HTML for responsive web designs.

Markup Developer | Blue Fountain Media (Feb 2007 – March 2009)

- Specialized in PSD-to-HTML conversion and PHP integration.
